⌘ SIGHTS AND ATTRACTIONS

Kroksgogen

Queen's Road stretches from Sundvollen to Kleivstua. This area is a good starting point for excursions both summer and winter. Krokkleiva is a famous preserved road along which artists, writers and other people have travelled for ages. It is part of the old King's Road to Bergen, which runs through Kroksgogen to Bærums verk. Signs lead you to King's View, one of Eastern Norway's finest views. It was named after king Karl Johan's visit there in the middle of the 19th century.

The Pilgrims' Path

stretches through the entire municipality and most parts follow medieval roads. Some parts of the path follow the same route as the old King's Road to Bergen. The path was finished and opened in 1995 during the 1000-year celebration of St. Olav, who was born in 995.

The rock carvings

in Nes can be seen from the waterside. The rock carvings in Sundvollen are found close by the local community's assembly hall. Entrance from the parking lot in Sundvollen.

The burial mounds on Frøshaugen

Over twenty burial mounds from the old stone age.
